## 2. Composition/ information on Ingredients :

**Composition**  
**Chemical Identity**

Cinnamomum zeylanicum bark Oil  
Liquid

## 3. Hazards Identification :

### 3.1 Classification of the substance or mixture

**Classification according to regulation (EU1272/2008)**

### 3.2 Label Elements Labeling according to Regulation (EC) No 1272/2008

**GHS Label**  
**Signal Word**  
**Contains**

**Hazard Statement**

**H304**  
**H317**  
**H319**  
**H341**  
**H350**  
**H411**

**Precautionary statement**

**P261**  
**P273**

Physical hazards: Not classified ,Health hazards: Asp. Tox. 1 - H304, Skin Sens. 1B - H317, Eye Irrit. 2 - H319, Muta. 2 - H341, Carc. 1B - H350  
Environmental hazards: Aquatic Chronic 2 - H411

GHS07

GHS08

GHS09

**Danger**  
BETA-CARYOPHYLLENE, ALPHA-PHELLANDRENE, ALPHA-PINENE, ALPHA-PHELLANDRENE, SAFROLE

May be fatal if swallowed and enters airways.  
May cause an allergic skin reaction.  
Causes serious eye irritation.  
Suspected of causing genetic defects.  
May cause cancer.  
Toxic to aquatic life with long lasting effects.

Avoid breathing vapours/spray.  
avoid release to the environment.

P280  
P301+P310 if swallowed  
P302+P352 if on skin  
P305+P351+p338 if in eyes  
P308+P313 - if exposed or concerned  
P333+P313 - if skin irritation or rash occurs  
P337+P313 - if eye irritation persists  
P391  
Supplementary precautionary statements  
P362+P364  
Section 16 (Other Information)

Wear gloves/ clothing/eye /face protection.  
Immediately call a poison center/doctor.  
Wash with plenty of water.  
Rinse cautiously with water for several minutes. remove contact lenses  
Get medical advice/attention.  
Get medical advice/attention.  
Get medical advice/attention.  
Collect spillage.

Take off the contaminated clothing and wash it before reuse.  
Risk and safety phrases in full

No data  
No data  
No data

### 3.3 Other Hazards

Adverse physicochemical properties  
Adverse effects on human health  
Pbt or vpvb according to Annex XIII

## 4. First Aid Measures :

### 4.1 Description of first aid measures

General Information  
After inhalation

After Ingestion

After skin contact

After Eye Contact

Always remove contaminated clothing immediately.  
Get medical attention immediately. remove from exposure site to fresh air, keep at rest, and obtain medical attention.  
Do not induce vomiting. immediately rinse mouth and provide fresh air. get medical advice/attention.  
Remove contaminated clothes. wash thoroughly with soap and water contact the physician if irritation persists.  
Immediately flush with plenty of water for up to 15 minutes. remove any contact lenses and open eyes wide apart. get medical advice/attention. continue to rinse

### 4.2 Most important symptoms and effects, both acute and delayed

Inhalation  
Ingestion  
Skin contact  
Eye contact

None  
None  
May cause an allergic skin reaction  
May cause eye irritation.

### 4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically

## 5. Fire Fighting Measures :

### 5.1 Extinguishing media

### 5.2 Special hazards arising from the substance or mixture

### 5.3 Advice for fire-fighters

Special protective equipment for fire-fighters

Suitable media:Foam, Co2, Dry Chemical Powder.  
Unsuitable media:Do not use water jet as an extinguisher.

A fire will often produce a thick black smoke. exposure to decomposition products may be hazardous to health. do not breathe in smoke. Thermal decomposition or combustion products may include the following substances: carbon dioxide (co2), carbon monoxide (co), other toxic gases. containers close to fire should be removed or cooled with water

Wear positive-Pressure self-Contained breathing apparatus (scba) and appropriate protective clothing.

EVAZ

## 6. Accidental Release Measures :

### 6.1 Personal precautions, protective equipment and emergency procedures

### 6.2 Environmental precautions

### 6.3 Methods and material for containment and cleaning

### 6.4 Reference to other sections

Wear protective clothing as described in section 8 of this safety data sheet. handle the product using protective gloves resistant to the chemicals exposed. avoid contact with skin and inhalation of its vapours. maintain adequate ventilation in the working area after spilling.

Do not discharge into drains, watercourses, or onto the ground and dispose of in line with local authority guidelines.

Remove ignition sources. provide adequate ventilation. avoid excessive inhalation of vapors. Contain spillage immediately by use of sand or inert powder. dispose of according to local regulations.

Refer & consider section 8. Refer & consider section 13.

## 7. Handling and Storage :

### 7.1 Precautions for safe handling

### 7.2 Conditions for safe storage, including any incompatibilities

Ensure good ventilation of the work station. obtain special instructions before use. do not handle until all safety precautions have been read and understood. take all necessary technical measures to avoid or minimize the release of the product on the workplace. limit quantities of product at the minimum necessary for handling and limit the number of exposed workers. provide local exhaust or general room ventilation. wear personal protective equipment. floors, walls and other surfaces in the hazard area must be cleaned regularly Avoid contact with skin and eyes. avoid breathing dust/fume/gas/mist/ vapours/spray

Keep the product container tightly closed, in a dry, ventilated area. Keep away from potential sources of ignition and protected from light. Maintain limited contact with oxygen.

### 7.3 Specific end use(s)

No further relevant information available.

## 8. Exposure Control / Personal Protection :

### 8.1 Control parameters

Linalool (cas: 78-70-6) ingredient comments

### 8.2 Exposure controls

Eye Protection  
Hand Protection  
Respiratory Equipment

No exposure limits noted for ingredient(s).

Wear protective gloves/eye protection/face protection.  
Wear protective gloves/eye protection/face protection.

Under normal conditions of use and where adequate ventilation is available to prevent the build-up of excessive vapor, this material should not require special engineering controls. However, in conditions of high or prolonged use, or high temperature, or other conditions which increase exposure, the following engineering controls can be used to minimize exposure to personnel:

- Increase ventilation of the area with local exhaust ventilation.
- Personnel can use an approved, appropriately fitted respirator with an organic vapor cartridge or canisters and particulate filters.
- Use closed systems for transferring and processing this material. also, refer to section 7.

## Hygiene Measures

## Engineering Measures

Skin protection

Personal protection

Other protection

Process conditions

Environmental exposure controls

Good personal hygiene practices are always advisable, especially when working with chemicals/oils.

Provide adequate ventilation.

Wear protective clothing to reduce the risk of skin and eye contact.

Avoid inhalation of the product. avoid contact with skin and eyes.

Wear suitable protection to avoid contact with skin and eyes. do not inhale vapors.

Ensure the area is well ventilated. avoid vapor inhalation. safety shower & eye bath.

Avoid discharging into drainage water.

## 9. Physical & Chemical Properties :

### 9.1 Information on basic physical and chemical properties

General Information

Appearance

Form

Colour

Odour

Odour threshold

Relative Density

Refractive Index

Flash Point (°C)

Solubility in Water @ 20°C

Liquid

Yellow Brown – Dark Yellow

Characteristic

Not determined

Approx. 1.040 @ 20°C

1.525 - 1.595 @ 20°C

88° C

Insoluble in Water.

### 9.2 Other information

Boiling point

245.7

Auto ignition temperature

380

## 10. Stability and Reactivity :

### 10.1 Reactivity

### 10.2 Chemical stability

### 10.3 Possibility of hazardous reactions

### 10.4 Conditions to avoid

### 10.5 Incompatible materials

### 10.6 Hazardous decomposition products

Presents no significant reactivity hazards. Stable under normal temperature conditions and recommended use.

Stable under suggested storage conditions (<15°C).

Not expected under normal conditions of use.

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. prevent storing the product in open containers for long periods so as to prevent product deterioration

Avoid contact with strong acids, alkalis or oxidising agents.

Not expected under normal temperature conditions and recommended use. thermal decomposition may release/form oxides of carbon (carbon monoxide, carbon dioxide) and other toxic gases.

## 11. Toxicological Information :

### 11.1 Information on toxicological effects

Acute toxicity

Ingestion

Oral

Dermal

None

None

None

## 12. Ecological Information :

### 12.1 Toxicity

Aquatic toxicity

### 12.2 Persistence and degradability

### 12.3 Bioaccumulative potential

### 12.4 Mobility in soil

### 12.5 Results of PBT and vPvB

assessment

PBT

vPvB

### 12.6 Other adverse effects

Toxic to aquatic life with long-lasting effects.

No further relevant information is available.

No Data

No Data

NO Data

No Data

No Data

No Data

## 13. Disposal Methods :

### 13.1 Waste treatment methods

Waste

Soiled packaging

Do not allow entry into drains or waterways.

Waste management is carried out without endangering human health, without harming the environment and, in particular without risk to water, air, soil, plants or animals.

Recycle or dispose of waste in compliance with current legislation, preferably via a certified collector or company.

Do not contaminate the ground or water with waste. Do not dispose of waste into the environment.

Empty container completely. Keep label(s) on the container.

Dispose of via a certified disposal contractor.

## 14. Transport Regulations :
