Danger
Limonene

, GHS08

,GHS09

,GHS02

May be fatal if swallowed and enters airways.
Causes skin irritation.
May cause an allergic skin reaction.
Very toxic to aquatic life with long lasting effects.

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

Avoid breathing vapours/spray.

Avoid release to the environment.

Wear protective gloves/protective clothing/eye protection/face protection.

Immediately call a poison center/doctor.

Wash with plenty of water.

Induce vomiting.

P333+P313: If skin irritation
P370+P378: In case of fire
P501

Supplementary Precautionary Statements
P264

Section 16 (Other Information)

3.3 Other Hazards

Adverse physiochemical properties
Adverse effects on human health
Pbt or vpvb according to Annex XIII

Get medical advice/attention.
Use carbon dioxide, dry chemical, foam to extinguish.
Dispose of contents in accordance with local, state or national legislation.

Wash hands and exposed skin thoroughly after handling.

Risk & Safety phrases in full.

No data

No data

4. First Aid Measures :

4.1 Description of first aid measures

General Information
After inhalation

After Ingestion

After skin contact

After Eye Contact

Always remove contaminated clothing immediately.
Get medical attention immediately. remove from exposure site to fresh air, keep at rest, and obtain medical attention.
Get medical attention immediately. Rinse mouth with water and obtain medical attention.
Remove contaminated clothes. wash thoroughly with soap and water contact the physician if irritation persists.
Flush immediately with water for at least 15 minutes. Contact physician if symptoms persist.

4.2 Most important symptoms and effects, both acute and delayed

Allergic contact dermatitis

4.3 Indication of any immediate medical attention and special treatment needed

Treat Symptomatically

5. Fire Fighting Measures :

5.1 Extinguishing media Suitable extinguishing agents

Foam, Co₂, Dry Chemical Powder.

5.2 Special hazards arising from the substance or mixture

A fire will often produce a thick black smoke. Exposure to decomposition products may be hazardous to Health. Do not breathe in smoke.
Thermal decomposition or combustion products may include the following substances:
Carbon dioxide (co₂), carbon monoxide (co), other toxic gases.
Containers close to fire should be removed or cooled with water.

5.3 Advice for fire-fighters

Special protective equipment for fire-fighters

Special protective equipment for fire-fighters wear positive-pressure self-contained breathing apparatus (scba) and appropriate protective clothing.

6. Accidental Release Measures :

6.1 Personal precautions, protective equipment, and emergency procedures

Ensure adequate ventilation of the working area, evacuate personnel to a safe area, wear suitable protective equipment. no smoking, sparks, flames, or other sources of ignition near spillage.

6.2 Environmental precautions

Do not discharge into drains, watercourses, or onto the ground. dispose of in line with local authority guidelines.

6.3 Methods and material for containment and cleaning up

Remove ignition sources. provide adequate ventilation. avoid excessive inhalation of vapors. Contain spillage immediately by use of sand or inert powder. dispose of according to local regulations. Cover with an inert, inorganic, non - combustible absorbent material (e.g dry-lime, sand, soda ash).

6.4 Reference to other sections

Refer & consider section 8,4,7,13

7. Handling and Storage :

7.1 Precautions for safe handling

Handle in accordance with good hygiene and safety practices. Keep away from heat, sparks, open flames, and hot surfaces. - no smoking. use personal protective equipment as required. Use in accordance with good manufacturing and industrial hygiene practices. Use in areas with adequate ventilation do not eat, drink or smoke when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Flammable liquid storage. Store only in the original receptacle. Keep container tightly sealed. Keep in cool, dry, ventilated storage and closed containers. Keep away from heat.

7.3 Specific end use(s)

Suitable for cosmetic, flavour, fragrance and professional applications only.

8. Exposure Control / Personal Protection :

Additional information about the design of technical systems

8.1 Control parameters

No further data; see item 7.

8.2 Exposure controls

No data

Eye Protection

Wear protective gloves/eye protection/face protection. Avoid contact with eyes. Wear approved safety goggles. (en166)

Hand Protection

Avoid contact with skin. Wash hands before breaks and at end of work. Wear protective gloves. Din/en374. The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Penetration time of glove material: the exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Respiratory Equipment

Do not inhale gases . Certified respiratory protective device recommended. Good personal hygiene practices are always advisable, especially when working with chemicals / oils.

Hygiene Measures

Provide adequate ventilation or respiratory protection.

Engineering Measures

Wear protective clothing to reduce the risk of skin and eye contact.

Skin protection

Avoid inhalation of the product. avoid contact with skin

Personal protection

Wear suitable protection to avoid contact with skin and eyes

Other protection

Ensure area is well ventilated. avoid vapour inhalation.

Process protection

Avoid discharging into drainage water. only eliminate by authorised companies.

Environmental exposure controls

10.2 Chemical stability

10.3 Possibility of hazardous reactions

10.4 Conditions to avoid

10.5 Incompatible materials

10.6 Hazardous decomposition products

Presents no significant reactivity hazards Stable under normal temperature conditions and recommended use..

Stable under normal temperature conditions and recommended use.

Not expected under normal temperature

Avoid heat ,sparks and open flames.Avoid exposure to air over prolonged periods.

Avoid concentrated acids, alkalis & oxidising agents.

This product does not decompose under normal conditions.

Under fire conditions the product will produce a mixture of irritating fumes & smoke.

13. Disposal Methods :

13.1 Waste treatment methods

Waste treatment methods

Waste

Soiled packaging

Do not allow entry into drains or waterways.

Waste management is carried out without endangering human health, without harming the environment and, in particular without risk to water, air, soil, plants or animals.

Recycle or dispose of waste in compliance with current legislation, preferably via a certified collector or company.

Do not contaminate the ground or water with waste. Do not dispose of waste into the environment.

Empty container completely. Keep label(s) on the container.

Dispose of via a certified disposal contractor.
