Danger

Citronellol, geraniol, menthones, pinenes, citral

Causes skin irritation.

May cause an allergic skin reaction.

May be fatal if swallowed and enters airways.

Causes serious eye damage

Wear protective gloves/protective clothing/eye protection/face protection.

Avoid release to the environment.

Immediately call a poison center or doctor/physician.

Wash with plenty of soap and water.

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

Contaminated work clothing should not be allowed out of the workplace.

No data

4. First Aid Measures :

4.1 Description of first aid measures

General Information

After inhalation

After Ingestion

After skin contact

After Eye Contact

Always remove contaminated clothing immediately.
Get medical attention immediately. Remove from exposure site to fresh air, keep at rest, and obtain medical attention.
Get medical attention immediately. Immediately call the doctor. Rinse mouth with water and obtain medical attention.
Remove contaminated clothes. Wash thoroughly with soap and water.
Contact physician if irritation persists.
Immediately flush with plenty of water for up to 15 minutes. Remove any contact lenses and open eyes wide apart. Get medical advice/attention. Continue to rinse.

4.2 Most important symptoms and effects, both acute and delayed

The severity of the symptoms described will vary depending of the concentration and the length of exposure.
May cause an allergic skin reaction.

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically

5. Fire Fighting Measures :

5.1 Extinguishing media Suitable extinguishing agents

Foam, Co2, Dry Chemical Powder.

5.2 Special hazards arising from the substance or mixture

Burning produces irritating, toxic, and obnoxious fumes

5.3 Advice for fire-fighters: Special protective equipment for fire-fighters

Wear positive-Pressure self-Contained breathing apparatus (scba) and appropriate protective clothing.

6. Accidental Release Measures :

6.1 Personal precautions, protective equipment, and emergency procedures

Ensure adequate ventilation of the working area, evacuate personnel to a safe area, wear suitable protective equipment. no smoking, sparks, flames, or other sources of ignition near spillage. avoid contact with skin, eyes, and clothing.

6.2 Environmental precautions

Do not discharge into drains, watercourses, or onto the ground. dispose of in line with local authority guidelines.

6.3 Methods and material for containment and cleaning up

Remove ignition sources. provide adequate ventilation. avoid excessive inhalation of vapors. Contain spillage immediately by use of sand or inert powder. dispose of according to local regulations.

6.4 Reference to other sections :

Refer & consider section 8. Refer & consider section 13.

7. Handling and Storage :

7.1 Precautions for safe handling

Handle in accordance with good hygiene and safety practice. Keep containers sealed when not in use. Prevent spills & leaks to avoid slip hazard. Always wear personal protective clothing (refer to section 8). Do not eat, drink, sniff or smoke whilst handling this product. Provide suitable mechanical equipment for the safe handling of drums & heavy packages.

7.2 Conditions for safe storage, including any incompatibilities

Flammable liquid storage. Store only in the original receptacle. Keep container tightly sealed. Keep in cool, dry, ventilated storage and closed containers. Keep away from heat.

7.3 Specific end use(s)

The information is in the risk management methods

8. Exposure Control / Personal Protection :

Additional information about the design of technical systems

8.1 Control parameters

No further data; see item 7.

Linalool (cas: 78-70-6)

Ingredient comments

No exposure limits noted for ingredient(s).

8.2 Exposure controls

Eye Protection

Hand Protection

Wear protective gloves/eye protection/face protection. Avoid contact with eyes. Wear approved safety goggles. (en166)

Avoid contact with skin. Wash hands before breaks and at end of work. Wear protective gloves. Din/en374. The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Penetration time of glove material: the exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Do not inhale gases . Certified respiratory protective device recommended

Good personal hygiene practices are always advisable

None

Wear protective clothing to reduce the risk of skin and eye contact.

Avoid inhalation of the product. avoid contact with skin. Use personal protection according to directive 89/686/eec.

Wear suitable protection to avoid contact with skin and eyes

Ensure area is well ventilated. avoid vapour inhalation.

Avoid discharging into drainage water. only eliminate by authorise companies.

9.2 Other information

No further relevant information available.

10. Stability and Reactivity :

10.1 Reactivity

10.2 Chemical stability

10.3 Possibility of hazardous reactions

10.4 Conditions to avoid

10.5 Incompatible materials

10.6 Hazardous decomposition products

Not Applicable

Stable under suggested storage conditions (<15°C).

None under normal processing

Storage at high temperatures. Do not store above 15°C. Avoid heat, flames and other sources of ignition.

Avoid concentrated acids, alkalis & oxidizing agents.

This product does not decompose under normal conditions. Under fire conditions, the product will produce a mixture of irritating Carbon Dioxide, fumes & smoke.

11. Toxicological Information :

11.1 Information on toxicological effects

Acute toxicity

Primary irritant effect

On the skin

On the eye

Sensitization

Germ cell mutagenicity

Carcinogenicity

Reproductive toxicity
