2. Composition/ information on Ingredients :

Composition

Chemical Identity

Lavandula Angustifolia Oil

Limpid Liquid

3. Hazards Identification :

3.1 Classification of the substance

or mixture

Classification according to regulation (67/548/eec)

Classification according to regulation (EU1272/2008)

**Physical and chemical
Human Health
Environment**

No data

Not classified

Asp. Tox. 1 - h304, skin irrit. 2 - h315, skin sens. 1b - h317
Aquatic acute 2 - H401. Aquatic Chronic 3 - H412.

3.2 Label Elements

Labeling according to Regulation (EC) No 1272/2008

GHS Label

GHS07

, GHS09

Danger

LINALOOL, LIMONENE

Harmful if swallowed

Causes skin irritation.

May cause an allergic skin reaction.

Causes serious eye irritation.

Harmful to aquatic life with long lasting effects.

Keep out of reach of children.

Avoid release to the environment
Use gloves and goggles.
Rinse thoroughly
With water several minutes. remove contact lenses. keep rinsing.
Immediately contact toxicology center or a doctor
In case of irritation or skin rash please seek medical advice/ help.
Collect spillage.
Store in a cool and well-ventilated place.
Discard contents / container in an approved disposal site in accordance with local and national regulations.

None

Risk & Safety phrases in full.

Combustable but should not self ignite

Can cause skin irritation

No data

Supplementary Precautionary
Statements
Section 16 (Other Information)

3.3 Other Hazards

Adverse physicochemical properties
Adverse effects on human health
Pbt or vpvb according to Annex XIII

4. First Aid Measures :

4.1 Description of first aid measures

General Information
After inhalation

After Ingestion

After skin contact

After Eye Contact

Always remove contaminated clothing immediately.
Get medical attention immediately. remove from exposure site to fresh air, keep at rest, and obtain medical attention.
Get medical attention immediately. remove from exposure site to fresh air, keep at rest, and obtain medical attention.
Remove contaminated clothing immediately and wash skin with soap and water. Get medical advice/attention if any discomfort continues. Wash contaminated clothing before re-use.
Flush immediately with water for at least 15 minutes. contact physician if symptoms persist.

4.2 Most important symptoms and effects, both acute and delayed

None

4.3 Indication of any immediate medical attention and special treatment needed

Compulsory medical assistance if swallowed.

5. Fire Fighting Measures :

5.1 Extinguishing media

Suitable extinguishing agents

Foam, Co2, Dry Chemical Powder.

5.2 Special hazards arising from the substance or mixture

Possible discharge of toxic gases upon burning. Use protective equipment – gas mask.

5.3 Advice for fire-fighters

Special protective equipment for fire-fighters

Wear positive-Pressure self-Contained breathing apparatus (scba) and appropriate protective clothing.

6. Accidental Release Measures :

6.1 Personal precautions, protective equipment and emergency procedures

6.2 Environmental precautions

6.3 Methods and material for containment and cleaning In case of large spills

In case of small spills

6.4 Reference to other sections

Ensure adequate ventilation of the working area, evacuate personnel to a safe area, wear suitable protective equipment. no smoking, sparks, flames, or other sources of ignition near spillage. avoid contact with skin, eyes, and clothing.

Do not discharge into drains, water courses or onto the ground. dispose of in line with local authority guidelines.

Limit spills at the use of inert absorbent materials (sand, soil, diatomaceous earth). assemble and store spillage in a container for temporary storage, then give to persons who hold a permit under article 37 of the waste management act.

Dilute thoroughly with water and rinse. contaminated materials should be treated as waste according to item 13. assemble and place spillage in a container for temporarily storage, then hand over to individuals holding a permit under article 37 of the waste management act.

Refer & consider section 8,7,4,13

7. Handling and Storage :

7.1 Precautions for safe handling

7.2 Conditions for safe storage, including any incompatibilities Storage

7.3 Specific end use(s)

Handle in accordance with good hygiene and safety practice. keep away from heat, sparks, open flames and hot surfaces. - no smoking. use personal protective equipment as required. use in accordance with good manufacturing and industrial hygiene practices. use in areas with adequate ventilation do not eat, drink or smoke when using this product

Keep the product container tightly closed, in a dry, ventilated area. Keep away from potential sources of ignition and protected from light. Maintain limited contact with oxygen.

For raw material in the manufacture of perfumery products

8. Exposure Control / Personal Protection :

Additional information about the design of technical systems

8.1 Control parameters

8.2 Exposure controls

Eye Protection

Hand Protection

Respiratory Equipment

No further data; see item 7.

No exposure limits noted for ingredient(s).

Wear protective gloves/eye protection/face protection.

Wear protective gloves/eye protection/face protection.

Under normal conditions of use and where adequate ventilation is available to prevent the build-up of excessive vapor, this material should not require special engineering controls. However, in conditions of high or prolonged use, or high temperature, or other conditions which increase exposure, the following engineering controls can be used to minimize exposure to personnel:

a) Increase ventilation of the area with local exhaust ventilation.

b) Personnel can use an approved, appropriately fitted respirator with an organic vapor cartridge or canisters and particulate filters.

c) Use closed systems for transferring and processing this material. also, refer to section 2 and 7.

Skin protection
Personal Protection

Other Protection

Process conditions

Environmental exposure controls

Good personal hygiene practices are always advisable, especially when working with chemicals/oils.

Provide adequate ventilation.

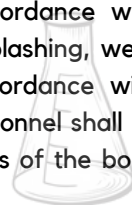

Wear protective clothing to reduce the risk of skin and eye contact.

Avoid inhalation of the product. avoid contact with skin and eyes.

Avoid skin contact. Wear suitable protective clothing. Suitable type of protective clothing : in the event of substantial spatter, wear liquid-tight protective clothing against chemical risks (type 3) in accordance with en14605 to prevent skin contact. in the event of a risk of splashing, wear protective clothing against chemical risks (type 6) in accordance with en13034 to prevent skin contact. work clothing worn by personnel shall be laundered regularly. after contact with the product, all parts of the body that have been soiled must be washed.

Ensure the area is well ventilated. avoid vapor inhalation. safety shower & eye bath.

Avoid discharging into drainage water. Only eliminate by authorised authorities.

9. Physical & Chemical Properties :

9.1 Information on basic physical and chemical properties

General Information

Appearance

Form

Colour

Odour

Odour threshold

Relative Density

Refractive Index

Flash Point (°C)

Solubility in Water @ 20°C

Liquid

Colourless-pale yellow

Characteristic.

Not determined.

0.881 - 0.901 @ 20°C

1.450 - 1.470 @ 20°C

71° C

Insoluble in Water

9.2 Other information

No further relevant information available.

10. Stability and Reactivity :

10.1 Reactivity

10.2 Chemical stability

10.3 Possibility of hazardous reactions

10.4 Conditions to avoid

10.5 Incompatible materials

10.6 Hazardous decomposition products

Stable under recommended storage conditions

Stable under normal conditions

Incompatibility with acids and bases

Storage at high temperatures.

Avoid concentrated acids, alkalis & oxidising agents.

This product does not decompose under normal conditions. under fire conditions the product will produce a mixture of irritating fumes & smoke & carbon monoxide.

11. Toxicological Information :

11.1 Information on toxicological effects

Acute toxicity

Primary irritant effect

On the skin

On the eye

None

It may cause allergic reaction during skin contact.

Serious eye damage. there may be an irreversible effect on the eyes, such as damage to the tissues in the eye or severe physical deterioration of vision, which is not completely reversible by the end of the observation after 21 days. serious eye damage is characterized by corneal destruction, permanent corneal opacity, and iritis.

May cause an allergic skin reaction

No Data

CAS 5989-27-5: IARC GROUP 3: The agent cannot be classified in terms of its carcinogenicity to humans

No Data

Sensitization

Germ cell mutagenicity

Carcinogenicity

Reproductive toxicity

Additional toxicological information

STOT – single exposure

STOT – repeated exposure

Aspiration hazard

Other information

No data

No Data

May be fatal if swallowed and enters airways.

No Data

12. Ecological Information :

12.1 Toxicity

Very toxic to aquatic life with long lasting effects.

linalool(cas:78-70-6)

crustacean toxicity duration of exposure 48h

ec50=59mg/l

species :daphnia magna

oecdguideline 202(daphnia sp.acute)

No Data

Does not accumulate in biological environment

The product is mobile in an aqueous environment

12.2 Persistence and degradability

12.3 Bioaccumulative potential

12.4 Mobility in soil

12.5 Results of PBT and vPvB assessment

12.6 Other adverse effects

None

Do not allow product to enter streams, sewers, or other waterways.

13. Disposal Methods :

13.1 Waste treatment methods

Product

Disposal together with general waste is not allowed. do not allow product to enter drains. dispose of as special waste in compliance with local and national regulations.

Contaminated packing

In accordance with local and national regulations. material dispose of as unused product.

European catalog number for waste

No waste code can be given for this product according to the european waste catalog as it is dictated by its possible use. the waste code is given after consultation with the regional waste service

14. Transport Regulations :

14.1 UN-Number

14.2 UN proper shipping name

14.3 Transport hazard class(es)

14.4 Packing group

14.5 Environmental hazards

14.6 Special precautions for users

14.7 Transport in bulk according to Annex II of Marpol 73/78 and the IBC Code

3082

Environmentally hazardous substance, liquid, N.O.S

Pack, gp III

None

ADR 3082 hazardous substances from the environmental point of view, liquid, o.u.o. and 3082 hazardous substances from the environmental point of view liquid, o.u.o.

IMDG 3082 hazardous substances from the environmental point of view, liquid, o.u.o. marine pollutant: yes

15. Regulatory Information :

15.1 Product-specific safety, health & environmental regulations & legislation

EU Directives

Regulation (EC) No 1907/2006 of the European Parliament and of the council of 18th December 2006. Concerning the registration, evaluation, authorization & restriction of chemicals (REACH), establishing a European Chemicals Agency, amending Directive 199/45/EC and repealing council regulation (EEC) No 793/93 & commission regulation (EC) No 1488/94 as well as council directive 76/769/EEC & commission directive 91/155/ECC, 93/67/ECC, 93/105/EEC & 2000/21/EC (including amendments).
